1. Composition/ information on ingredients

Shell cockpit spray contains an aqueous mixture of cleaners based on aliphatic hydrocarbons and perfumed composition. It contains natural beeswax. Does not contain silicones.

2. Application

Shell cockpit spray easily removes dust and dirt from the dashboard and interior plastic parts in the car. It removes fingerprints, dirt and stains and restores the color of treated surface. Special formula leaves a silky matt surface coated with an antistatic layer that protects against re-deposition of dust. It provides a pleasant aroma. Suitable for smooth and textured surfaces of plastic.

3. How to use

Shake well before use. Apply a thin and even layer on plastic parts from a distance of about 5 cm, or on soft tissue (recommended), and distribute evenly over the entire surface. Wipe with a soft cloth for matte finish. Do not spray on the steering wheel, pedals and seats. Do not spray on the glass. Use regularly to get the best protection.
